Contents of Volume 232, 1983

No. 1 issued on June 16, 1983

C.D. Dijkstra, A.A. te Velde, N. Van Rooijen: Localization of horseradish peroxidase (HRP)-anti-HRP complexes in cryostat sections: Influence of endotoxin on trapping of immune complexes in the spleen of the rat 1

H. Schmid, D.C.M. Taylor, Fr.-K. Pierau: Tracing of sensory neurones and spinal motoneurones of the pigeon by injection of fluorescent dyes into peripheral nerves 9

S.L. Saunders, C.W. Reifel, S.H. Shin: Ultrastructural changes rapidly induced by somatostatin may inhibit prolactin release in estrogen-primed rat adenohypophysis 21

J.L. Brandenburger, R.M. Eakin: Transport of pinocytic vesicles in the eye of a snail, *Helix aspersa* 35

R. Schwind: Zonation of the optical environment and zonation in the rhabdom structure within the eye of the backswimmer, *Notonecta glauca* 53

P. Pic, L. Remy, E. Mazzella, S. Rua: Cyclic AMP as the second hormonal messenger in the in vitro folliculogenesis of the foetal thyroid gland of the rat 65

W. Stockem, H.-U. Hoffmann, B. Gruber: Dynamics of the cytoskeleton in *Amoeba proteus*. I. Redistribution of microinjected fluorescein-labeled actin during locomotion, immobilization and phagocytosis 79

E. Canale, G.R. Campbell, Y. Uehara, T. Fujiwara, J.J. Smolich: Sheep cardiac Purkinje fibers: Configurational changes during the cardiac cycle 97

S. Foster, L.J. Goodman, J.G. Duckett: Sensory receptors associated with the stylets and cibarium of the rice brown planthopper, *Nilapavarta lugens* 111

I. Findlay, O.H. Petersen: The extent of dye-coupling between exocrine acinar cells of the mouse pancreas. The dye-coupled acinar unit 121

D.R. Nässel, N. Klemm: Serotonin-like immunoreactivity in the optic lobes of three insect species 129

P. Ekström, T. van Veen: Central connections of the pineal organ in the three-spined stickleback, *Gasterosteus aculeatus* L. (Teleostei) 141

G.E. Fåhræus-van Ree, M. van Vlaardingen, J.Th. Gielen: Effect of 17α-methyltestosterone, estradiol-17β and synthetic LHRH on production of gonadotropic hormone in pituitaries of rainbow trout (organ culture) 157

P.A. Hill, J.P. Coghlan, J.G. McDougall, G.B. Ryan: Structural studies of the adrenal zona glomerulosa and renal juxtaglomerular apparatus in pregnant sheep 177

M. Bergmann, H. Greven, J. Schindelmeiser: Observations on the blood-testis barrier in a frog and a salamander 189

M.D. Kendall, N.M. Blackett: Ultrastructural studies on the thymus gland after the administration of phenylhydrazine to bank voles (*Clethrionomys glareolus*) 201

R. Elofsson: 5-HT-like immunoreactivity in the central nervous system of the crayfish, *Pacifastacus leniusculus* 221

No. 2 issued on July 12, 1983

R.F. Stocker, R.N. Singh, M. Schorderet, O. Siddiqi: Projection patterns of different types of antennal sensilla in the antennal glomeruli of *Drosophila melanogaster* 237

C.W. Reifel, S.H. Shin, R.A. Leather: Extensive ultrastructural changes in rat mammotrophs following administration of the dopamine agonist ergocristine-reflecting inhibition of prolactin release 249

L.I. Terr, L.P. Weiner: Demonstration of a class of porphyrin-containing cells in the pars intermedia of the rat hypophysis 257

R. Jones, M.E. Dennison, G. Burnstock: The effect of decentralisation or chronic hypogastric nerve stimulation in vivo on the innervation and responses of the guinea-pig vas deferens 265

R. Jones, R. Yokota, G. Burnstock: The long-term influence of decentralisation or preganglionic hypogastric nerve stimulation in vivo on the reinnervation of minced vas deferens in the guinea-pig 281

M. El-Salhy, S. Falkmer, K.J. Kramer, R.D. Speirs: Immunohistochemical investigations of neuropeptides in the brain, corpora cardiaca, and corpora allata of an adult lepidopteran insect, *Manduca sexta* (L) 295

K.R. Olson: Effects of perfusion pressure on the morphology of the central sinus in the trout gill filament 319

J. Miyagawa, K. Yamashita, H. Fujita: Fine structural aspects of phagocytotic activity in inverted follicle cells of cultured porcine thyroids 327

E. Frixione: The microtubular system of crayfish retinula cells and its changes in relation to screening-pigment migration 335

J. Easton, A. Howe: The distribution of thoracic glomus tissue (aortic bodies) in the rat 349

B. Krisch, A. Böll, M. Brandt, U. Spiegel, U. Thiessen: Differing postnatal development of the somatostatin- and luliberin-systems in the male and female rat 357

R. Yokota, G. Burnstock: Synaptic organisation of the pelvic ganglion in the guinea-pig 379

R. Yokota, G. Burnstock: Decentralisation of neurones in the pelvic ganglion of the guinea-pig: Reinnervation by adrenergic nerves 399

M. Karasek, N.K.R. Smith, T.S. King, L.J. Petterborg, J.T. Hansen, R.J. Reiter: Inclusion bodies in pinealocytes of the cotton rat *(Sigmodon hispidus).* An ultrastructural study and X-ray microanalysis 413

H. Greven, J. Schindelmeiser, H. Straub: The innervation of the uterus in *Salamandra salamandra* (L.) (Amphibia, Urodela). A morphological and biochemical study 421

W. Barańska, M. Marciniak, W. Baran: Morphometric ultrastructural study of the regeneration of soleus muscle in hypokinesia 433

J. Fonfría, M.G. Barrutia, E. Garrido, C.F. Ardavín, A. Zapata: Erythropoiesis in the thymus of the spotless starling, *Sturnus unicolor* 445

M. Majchrzak, L.K. Malendowicz: Sex differences in adrenocortical structure and function. XII. Stereologic studies of rat adrenal cortex in the course of maturation 457

No. 3 issued on July 26, 1983

R.H. Ho: Widespread distribution of substance P- and somatostatin-immunoreactive elements in the spinal cord of the neonatal rat 471

K. Inomata, T. Okada, H. Seguchi, K. Ogawa: The confronting cisternae in neurons in the substantia gelatinosa of the spinal cord of rats and Japanese monkeys 487

A. Quennedey, B. Quennedey, J.-P. Delbecque, J. Delachambre: The in vitro development of the pupal integument and the effects of ecdysteroids in *Tenebrio molitor* (Insecta, Coleoptera) 493

F. Sasaki, H. Takahama, T. Horiguchi, K. Watanabe: Electron-microscopical study of the operculum in anuran tadpole after extirpation of the right forelimb during metamorphosis 513

C. Haldar-Misra, P. Pévet: The influence of luteinizing hormone-releasing hormone (LHRH) on the process of protein and/or peptide secretion characterized by the formation of granular vesicles in mammalian pinealocytes. Comparative in vitro study 529

K. Takahashi, H. Takahashi, M. Naito, T. Sato, M. Kojima: Ultrastructural and functional development of macrophages in the dermal tissue of rat fetuses 539

T.P. Yoshino, W.O. Granath, Jr.: Identification of antigenically distinct hemocyte subpopulations in *Biomphalaria glabrata* (Gastropoda) using monoclonal antibodies to surface membrane markers 553

C.A. Maltin, J.B. Harris, M.J. Cullen: Regeneration of mammalian skeletal muscle following the injection of the snake-venom toxin, taipoxin 565

A. Dobrina, M.R. Soranzo, F. Rossi: Isolation of metabolically active endothelial cells in high yield from bovine cavernous bodies. A model for functional studies on freshly isolated microvascular endothelial cells 579

R.J. Baerwald, J.B. Delcarpio: Double membrane-bounded intestinal microvilli in *Oncopeltus fasciatus* 593

N.B. Migally, A. Tucker, K. Greenlees, M. Wright, J. Zambernard: Density and ultrastructure of mast cells in lung vessels of aging rats exposed to and recovering from chronic hypoxia 601

P.J. Whitfield, R.H. Emson: Presumptive ciliated receptors associated with the fibrillar glands of the spines of the echinoderm *Amphipholis squamata* 609

C. Ruchti, D. Haller, M. Nuber, H. Cottier: Regional differences in renewal rates of fibroblasts in young adult female mice 625

R.S. Tulsi: Architecture of the basal region of the subcommissural organ in the brush-tailed possum (*Trichosurus vulpecula*) 637

A.L. Polenov, N.A. Efimova, M.S. Konstantinova, Y.I. Senchik, I.V. Yakovleva: The hypothalamo-hypophysial system in Acipenseridae. IX. Formation of monoaminergic neurosecretory cells in the preoptic nucleus region during early ontogeny 651

G. Sundermann: The fine structure of epidermal lines on arms and head of postembryonic *Sepia officinalis* and *Loligo vulgaris* (Mollusca, Cephalopoda) 669

Short Communications

M.Kawata, K. Hashimoto, J. Takahara, Y. Sano: CRF-immunoreactive nerve fibers in the circumventricular organs of the monkey, *Macaca fuscata* 679

R. Schulz, V. Blüm: Elimination of the nucleus in preovulatory oocytes of the rainbow trout, *Salmo gairdneri* Richardson (Teleostei) 685

A. Rabié, M. Thomasset, Ch. Legrand: Immunocytochemical detection of calcium-binding protein in the cochlear and vestibular hair cells of the rat 691
